All work submitted by students is expected to be your own work. The use of AI large language models (such as ChatGPT), in writing academic work for this course, including papers, exams, and other assignments, is prohibited unless expressly identified in writing by me as an appropriate resource for the academic work or exam.

Where the use of AI is permitted, content composed by any resource other than by you must be attributed through proper citation. Students may be required to provide the source and the specific generative AI outputs relied upon, so you should keep a record of interactions with generative AI for coursework.
